

Machine Refurbishment Packages

At Vac•Con we understand that your equipment is an investment. That's why we offer the industry's best service to maintain and restore your machine for years of continued operation.

Choose from one of our pre-selected packages or pick and choose options for a custom rebuild.

Why Choose Vac•Con Service

- A dedicated team of highly trained and certified technicians located at our manufacturing facility will complete the refurbishment and maintenance selected
- Our facility is equipped for component rebuilds of positive displacement blowers, high pressure water pumps, and most major hydraulic components
- Vac•Con Service is an authorized repair center for Roots blowers, Myers and FMC water pumps, and Cummins auxiliary engines
